- *This document may contain capitalized terms that are not defined herein, or may contain terms that are discussed in other documents or that are commonly understood. You should make no assumptions about the meaning of capitalized terms that are not defined, and you should consult with advisors of AAFAF should clarification be required.*
- *The report dated December 18, 2017, "Summary of Bank account Balances for Puerto Rico Governmental Instrumentalities As of November 30 2017," (the "Bank Account Balance Report") disclosed the balance of Other Puerto Rico Treasury Custody Accounts of \$491 million as of November 30, 2017. As set forth in the Bank Account Balance Report, those funds consist mainly of pension-related funds, including employee contributions, and lottery-related funds. As further set forth in the Bank Account Balance Report, a process will be undertaken to evaluate the accounts, including evaluating the cash inflows and outflows and reviewing legal restrictions relative to funds deposited into the bank accounts.*

Special Revenue Funds	- Commonwealth governmental funds separate from the General Fund that are created by law, are not subject to annual appropriation and have specific uses established by their respective enabling legislation. Special Revenue Funds are funded from, among other things, revenues from federal programs, tax revenues assigned by law to public corporations and other third parties, fees and charges for services by agencies, dividends from public corporations and financing proceeds.
SSA	- Social Security Administration.
TRS	- Teachers Retirement System means the Puerto Rico System of Annuities and Pensions for Teachers, a statutory trust created to provide pension and other benefits to retired teachers of the Puerto Rico Department of Education and to the employees of the Teachers Retirement System. TRS is a fiduciary fund of the Commonwealth of Puerto Rico for purposes of the Commonwealth's financial statements.
TSA	- TSA means Treasury Single Account, the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed. TSA receipts include tax collections, charges for services, intergovernmental collections, the proceeds of short and long-term debt issuances and amounts held in custody by the Secretary of the Treasury for the benefit of the Commonwealth's fiduciary funds. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.
Unrecorded Invoices	- Invoices that have been physically captured but are currently being manually entered into an Excel ledger DTTPR. These invoices have not been captured in the accounting system.

Introduction

- Enclosed is the weekly Treasury Single Account ("TSA") cash flow report, supporting schedules and budget to actual variance analysis.
- TSA is the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed.
- Beginning April 2016, TSA receipts are deposited in a commercial bank account rather than the Government Development Bank for Puerto Rico ("GDB").
- Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances held in custody by the Secretary of Treasury for the benefit of the Government fiduciary funds, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.
- Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.
- Federal funds related to disaster relief for hurricanes Irma and Maria are deposited in a separate bank account overseen by the Government Authorized Representative ("GAR"), and transferred to the TSA only after admissible disbursements (per approved Project Worksheets) have been made. These inflows to the TSA will be captured on the Federal Funds Receipts (Schedule C); outflows will be captured on the Vendor Payments (Schedule E).
- Data for TSA inflows/outflows is reported from various systems within the Department of Treasury of Puerto Rico ("DTPR"):
 - Cash Flow Actual Results - Source for the actual results is the TSA Cash Flow.
 - Schedule A - Collections - Source for collections information is the DTPR collections system.
 - Schedule B - Agency Collections - Source for the agency collections is DTPR.
 - Schedule C - Federal Fund Receipts - Source for the federal funds receipts is DTPR.
 - Schedule D - Net Payroll - Source for net payroll information is the DTPR Rhum Payroll system.
 - Schedule E - Vendor Payments - The source for vendor payments is the Bank checks paid report and a report from the DTPR PRIFAS system.
 - Schedule F - Other Legislative Appropriations - Source for the other legislative appropriations is DTPR.
 - Schedule G - Central Government - Partial Inventory of Known Short Term Obligations - Sources are DTPR.
- Data limitations and commentary:

The government has focused on the seven schedules above for which access to reliable, timely, and detailed data is available to support these items. The government continues to work with DTPR and other parties to access additional reliable data that would help us provide detail in the future for other line items in the Cash Flow.

FY 2018 TSA Forecast Key Assumptions

- The FY 2018 Treasury Single Account cash flow forecast Liquidity Plan was prepared at the beginning of the fiscal year based on the approved FY 2018 Budget, was projected monthly through June 2018, and is used as the benchmark against which weekly results are measured. As a result of material economic and operational changes stemming from Hurricanes Irma and Maria, DTPR is in the process of developing a reforecast of TSA cash flows to year-end. Until then, the original TSA forecast will continue to serve as the measure for weekly cash flow variances.
- Forecast collections and disbursements through the General Fund and Federal Fund are consistent with the approved FY 2018 Budget, with the exception of payroll outlays which were forecast based on run-rate cash disbursement trends, and budget reserves which are non-cash and do not impact the TSA direct cash flows.
- TSA General Fund inflows are "gross" (i.e. include accrued Tax Refunds in 2018) and therefore higher than presented in the approved FY 2018 Budget, which considers General Fund revenues net of current year tax refunds. Repayment of deferred tax refunds (from CY 2016 and prior) total \$292mm; reserve for current year tax refunds (excluding garnishments) total \$456mm.
- Payroll outlays are based on FY 2017 run-rate disbursements, less savings measures, representing a \$298mm adjustment to the approved FY 2018 Budget for the full fiscal year. Payroll is presented inclusive of segregated employee contributions (\$349M for the year). Payroll is disbursed through the TSA on a bi-weekly basis, approximately on the 15th and 30th of each month.
- Pensions reflect the implementation of the pay-as-you-go model in FY 2018. Retirement system inflows represent deposits from municipalities and corporations net of administrative expenses. Figures also include ERS / TRS / JRS asset sales (\$390M), occurring in July 2017.
- Assumes collections and outlays of Federal Funds are equal in FY 2018 (zero net cash impact), excluding potential timing impact.
- Clawback funds set aside prior to June 2016 (approx. \$146mm held at BPPR accounts and \$144mm held at GDB) are considered restricted cash and therefore excluded from the projected cash balance.
- Assumes \$592mm of Reconciliation Adjustment as per the approved FY 2018 Budget and March 13 certified Fiscal Plan, which is projected separately from supplier payments and distributed evenly over 12 months. No further provision has been made for potential contingent liabilities against the government.
- The forecast assumes that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA for operational purposes, totaling approx. \$316mm in incremental collections in the forecast. To date these funds have flowed, and may continue to flow, to the COFINA bank account (BNY Mellon), which will create a weekly variance from November through January.

Executive Summary - TSA Cash Flow Actual Results for the Week Ended December 29, 2017

Key Figures as of 12/29/2017				
	\$1.69bn	(\$108M)	(\$62M)	(\$104M)
	Bank Cash Position	Weekly Cash Flow	Weekly Variance	YTD Net Cash Flow
				(\$155M)

Notable variances for the week ended December 29, 2017:

-\$55M	Inflow - Sales & Use Tax	Mainly due to the forecast's assumption that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA, which to date, has not occurred (Permanent).
-\$41M	Inflow - Electronic Lottery	Original forecast assumed collection of Q2 Lottery monies on 12/29; now projected to be received in January 2018 (Temporary).
-\$11M	Outflow - Police Payroll	Mainly due to the disbursement of overtime pay to the Puerto Rico Police Department (Permanent).
+\$47M	Outflow - ASES Appropriation	Weekly variance is timing related, as the total weekly outflows to ASES correspond with federal funds received by the Department of Health (Temporary).

Notable YTD variances as of December 29, 2017:

-\$490M	Inflow - Federal Fund Receipts	YTD variances in federal fund receipts are partially offset by variances in vendor disbursements, federal appropriations to ASES, and disbursements for Nutritional Assistance (Temporary).
-\$282M	Inflow - Sales & Use Tax	Mainly due to the forecast's assumption that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA, which to date, has not occurred (Permanent). This is expected to result in -\$316M of permanent variance by the end of FY2018.
-\$214M	Inflow - General Collections	Principally due to the negative impacts caused by Hurricane María (Temporary & Permanent).
+\$62M	Outflow - Tax Refunds	Mainly due to \$27M in Senior Citizen tax refunds, originally forecast to be refunded in November and December, now projected to be refunded in February and March 2018 (Temporary).
+\$296M	Outflow - Reconciliation Adj.	Utilization of the Reconciliation Adjustment deferred to later this fiscal year (Temporary).
+\$444M	Outflow - Vendor Disbursements	Prior to Hurricane María (as of 9/15), there was a positive YTD variance in vendor disbursements of +\$92M due to a slower-than-forecast cadence for invoice processing. Additionally, invoice entry has been hindered due to technical issues stemming from Hurricane María. YTD variance expected to reverse throughout the course of the year as technical issues are resolved (Temporary).

Key Cash Flow Risks to forecast through June 30, 2018:

Sales & Use Tax	Due to aforementioned forecast assumption that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA, which to date, has not occurred, and may not occur, total incremental loss may be -\$316M. Though this amount of SUT will be collected, it will be not available to the TSA for operational purposes. Lower SUT collections due to the impact of the Hurricanes on collections may approximate -\$365M by fiscal year-end, for a total variance of -\$682M compared to the Liquidity Plan forecast.
-----------------	---

Key Cash Flow Opportunities to forecast through June 30, 2018:

Petroleum & Gas Taxes	Strong Petroleum & Gas tax collections could continue throughout Q3 and Q4, providing additional positive variance in collections. Since Hurricane María, +\$80M variance in this revenue stream has provided support for other revenues that were negatively affected due to the Hurricanes.

Footnotes:

(a) Includes reserve for tax returns (\$456 million) and Special Revenue Fund portion of posted collections.

(b) Paygo charges to municipalities and public corporations collected at the TSA.

(c) As of the date of this report, no federal funded account balances have been transferred to the TSA that relate to disaster relief.

(d) Inflows related to the State Insurance Fund, the Department of Labor and Human Resources, the Commissioner of Financial Institutions, and others.

(e) Payroll is paid bi-weekly on the 15th and 30th (or last day of the month, whichever comes sooner).

(f) Related to employee withholdings, social security, insurance, and other deductions.

(g) Police payroll is reflected individually because it is paid through a separate bank account. Also, the police payroll line item shown in the TSA cash flow is gross (i.e. inclusive of Other Payroll Related items).

(h) Includes payments to third-party vendors as well as intergovernmental payments to agencies with separate Treasuries.

(i) This refers to General Fund appropriations to non-TSA entities such as Legislative Assembly, Correctional Health, Comprehensive Cancer Center, and others.

(j) Excludes Banco Popular of Puerto Rico Account with balance of approximately \$146mm; Amounts deposited in GDB subject to GDB restructuring.

(k) Unless otherwise stated, variances are either not material in nature or are expected to reverse in the short term.

- 1 Variance mainly due to Individual Income Tax collections with -\$15M of unfavorable variance for the week ended 12/29 that is partially temporary in nature. Unfavorable variance was partially offset by Corporate Income Tax Collections for the week, with +\$6M variance, reducing YTD Corporate Income Tax Collection shortfall to -\$6M.
- 3 The forecast assumes that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA, totaling approx. \$316M in incremental collections in the forecast. To date these funds have flowed, and may continue to flow, to the COFINA bank account (BNY Mellon), representing a negative variance from November through January. Unfavorable variance due to the depositing of these funds into the COFINA bank account the week of 12/29 is \$46M. YTD unfavorable variance due to funds deposited into the COFINA bank account is \$249M.
- 5 Rum tax collections are deposited into a lock box account and then remitted to the TSA via a waterfall, where the first \$117M in rum tax collections (that relates to FY18 exports) is received by the TSA and the Science & Technology Trust receives the next \$5M. Once these amounts are received, all new rum export tariff collections deposited into the lock box account are distributed to rum manufacturers until they have received 46% of the total YTD rum tax. At that point, the TSA will receive 54% of rum tax, and the rum manufacturers 46%, for the remainder of the year. The forecast assumes that the TSA reaches \$117M in rum tax collections by March 2018; However, this threshold is expected to be capped in December 2017. The YTD favorable variance in rum tax collections will reverse in Q3 where forecast rum tax collections in the TSA will be distributed to rum manufacturers, as per the Rum Tax Waterfall.
- 6 Q2 Lottery collection originally forecast for 12/29 has not yet been received; now projected to be received in March 2018.
- 8 Timing variance that is expected to reverse later this fiscal year.
- 11 Weekly and YTD variances in federal fund receipts are partially offset by variances in vendor disbursements (line 32), federal appropriations to ASES (line 25), and disbursements for Nutritional Assistance (line 35). Remaining variance is due to timing.
- 12 Weekly variance mainly due to \$18M related to petroleum import tax received on 12/27, originally forecast to be received the previous week on 12/22. Additional weekly variance of +\$11M due to inflows related to the Financial Industry Regulatory Authority received on 12/29, which is timing related. \$25M of YTD variance is due to better-than-projected Petroleum import tax collections throughout Q1 and Q2 FY2018, which are assumed to be permanent in nature. Remaining YTD variance is timing related and expected to reverse in subsequent weeks.
- 19 Weekly variance due to contributions on 12/26 & 12/27 to the Commonwealth's various retirement systems for the month of November, reversing the previous week's YTD variance. Remaining YTD variance is timing related.
- 20 Weekly variance due to disbursements made for Police Department overtime pay, which is permanent in nature. Remaining YTD variance is temporary and expected to reverse in subsequent periods.
- 24 YTD Pension PayGo outlays variance is offset by a reduction in contributions from pension systems (line 8), as there is no corresponding pension inflow as included within the original forecast. Remaining YTD variance is timing related.
- 25 Weekly variance is timing related. YTD variance is driven by lower-than-projected healthcare premiums & claims costs at ASES, and therefore lower federal matching funds flowing through the TSA. A portion of the YTD variance is permanent, but it is offset by associated federal fund receipts variance.
- 28 Weekly variance due to scheduled appropriation not occurring on 12/29 as originally forecast; now projected to be executed in January 2018.
- 30 Weekly and YTD variances in these appropriations are timing related and expected to reverse in subsequent weeks.
- 32 For the second week in a row, actual vendor disbursements exceeded forecast vendor disbursements, slightly reversing YTD variances built up due to payment processing issues experienced in the months following Hurricane Maria. The referenced issues were mainly driven by manual invoice entry that slowed down payment processing and contributed to the build up of YTD variance. Payment processing is showing signs of improvement across major agencies, and YTD variance is expected to continue to reverse throughout Q3 and Q4 of FY2018.
- 34 Weekly and YTD variances are due to timing. \$27M of the YTD variance is due to Senior Citizen tax refunds, originally forecast to be refunded in November and December, now projected to be refunded in February and March 2018. Timing of refunds corresponds with adjusted filing dates due to the impact of Hurricane Maria.
- 35 YTD variance is timing related, as it is offset by a temporary reduction in YTD federal fund receipts.
- 36 YTD variance is offset by GDB Transactions (relates to legacy debt service deposit agreement) variance in inflows (line 14), with remaining variance due to timing.
- 37 Utilization of the Reconciliation Adjustment deferred to later this fiscal year.

This is due to issues surrounding invoice entry that has hindered the timely cadence of recording invoices, which was made worse by the impact of the Hurricanes.

(b) Refers to checks issued but kept in vault. Due to control processes implemented this fiscal year, it is uncommon for there to be a material checks in vault balance, as now the Department of Treasury has greater control over the approval and authorization of checks before they are issued.

(c) Refers to invoices/vouchers approved for payment by the agencies but checks not released.
